## WHO ARE WE?

For more than 20 years, Positive Futures has been providing a wide range of innovative community-based services to children, young people and adults with an intellectual disability, acquired brain injury or autistic spectrum condition and their families. We're a non-denominational charity working right across Northern Ireland. Positive Futures is now working to bring this wealth of experience to people in the Republic of Ireland.

Our services are based in local communities and are provided with partners. We are experienced in working with our regulators and have been awarded 4 stars in the Ireland Excellence Awards (EFQM).

## WHAT DO WE DO?

At Positive Futures, we put the people we support first. We have a track record of coming up with innovative ideas and services. Independent evaluation has shown that we make a big difference in people's lives and that a small investment in our community-based approaches saves considerable money in the long run.

At Positive Futures, we're positive about people with an intellectual disability, acquired brain injury or autistic spectrum condition. Everything we do is tailor made for individuals.

Our services make a huge difference to the people and families we support.
